

Synergistic effect of the antiprogesterin ZK 230 211 and the iNOS- inhibitor ZK 809 984 in inhibiting implantation in rats after p.o. treatment on days 2-5 p.c.

ZK 230 211 (AP, mg/animal, n=6)

Synergistic effect of the antiprogesterin (AP) ZK 230 211 and the iNOS- inhibitor (iNOS-I) ZK 809 984 in inhibiting implantation in rats after p.o. treatment on days 5-8 p.c.

ZK 230 211 (AP mg/animal, n=6/group)

Synergistic effects of NOS inhibitors L-NAME (LN) and Aminoguanidine (A) + low-dose onapristone (ONA) on pregnancy rates and implantation number in rats treated on days 2-5 p.c.

Pregnancy rate on day 9, n = 7/group

Crosshatched bar = abnormal sites
